SOLDIERS, SEAMEN,

One hundred and twenty acres to all who have so served and have received 40 acres.

Eighty acres to all who have so served and have received 80 acres.

And if the soldier has deceased without obtaining 160 acres, the same allowance as above is made to his Widow, or if no Widow, to his Minor Children.

Service in the Revolution—in the War of 1812—and in all the Indian Wars, is provided for by said Act

And all who served the above period in the drafted Militia of the State of Maine in the year 1835, in what is known as the

AROOSTOOK WAR,

Are entitled to its benefits. Also the Militia called out by State Authority, and who served the above period, and whose services have been paid for by the United States, and their Widows, and Minor Children.

He has many Military Rolls and Copies in his possession, and especially very full ones of the Militia drafted for the Aroostook service in 1839.

As inducements to commit claims to his charge, he ventures to rely upon his long and well known experience and success in those of a similar nature.

He will, if preferred, Purchase the Land Warrants at fair rates.

Application may be made to him at his Office, or if requested by letter, he will send to claimants Declarations, with suitable directions, which may be executed without the parties leaving their homes.

G. W STONE'S

LIQUID CATHARTIC

—AND—

FAMILY PHYSIC,

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe, and agreeable physic ever offered to the public

THE necessity of such a medicine has long been felt both by the heads of families and physicians. Its advantages over cathartics given in the form of Pills or Powders must be obvious to every intelligent person. It operates on the bowels directly, and effectually upon the system, and at the same time is infinitely less difficult in administration, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes habitual Costiveness, for which disease it is perfectly free. It expels all humors from the blood, as a certain cure for the Piles. Regulates the action of the Liver, frees the stomach from Bile, invigorates the whole Nervous System, and removes the cause of all local pains, such as

Rheumatism, Neuralgia, The Doloureux, Gout, Pains in the Head, Side, Stomach, &c.

I may also be relied upon in cases of the Bowels—DYSENTERY, DIARRHŒA, AND CHOLERA MORBUS, yield at once to its magical influence. Again we repeat, TRY IT!—it needs but one recommendation. It rarely will be without it after they have properly tested its merits. Readers, if you have tried other remedies, without success despair not—relief is now at hand. Are you suffering from Scrofula? A bottle of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness, three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them. All humors will be eradicated from the blood by the use of from one to six bottles. In a word, if you require a physic for any purpose, this is the most reliable, safe, and agreeable to the taste that has ever been placed within the reach of the public.

HAS ARRIVED!

The Voluntary Testimony of Living Witnesses, is that

Hayes' Allied Ointment,

and Humor Syrup,

IS the BEST MEDICINE ever offered to the public for the Cure of all Humors

It has stood the test of more than seven years, and in offering it to the public we are but the echo of the question, We know it to be the greatest ALLEVIATOR OF PAIN and SUFFERING to those afflicted with any kind of disease, and hesitate not to say that one of the greatest blessings to mankind ever broke on the public, as we can show by the evidence of living witnesses.

Read the following—it speaks for itself.

LAWRENCE, June 19, 1854

We, the undersigned, citizens of Lawrence, having used the Vegetable Allied Ointment prepared by Dr. L. D Hayes of this city, and being personally acquainted with the facts, feel pleasure in adding our testimony to all the Doctor claims for his medicine. Unlike other remedies in the market, the preparation performs its office speedily and with certainty. The Ointment was used with the most happy result, after vainly seeking relief by the free use of Sarsaparilla Salves, &c., &c.

Our experience fully justifies us in confidently recommending it as the article, and the only one known to us at performing all it claims.

The Great European Cough Remedy.

Important to the Consumptive and the Public generally. The celebrated

Universal Cough Mixture

Is a safe and effectual Remedy for Coughs of every description, whether of children or adults, of recent or long standing.

PREPARED ONLY BY

REV. WALTER CLARKE,

Sole Proprietor, Cornishville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs is speedily acknowledged, and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration, and by removing the exciting cause of the cough, it frequently enables the sufferer to enjoy natural and refreshing sleep, who for weeks had been deprived of that blessing.

Sold in trial bottles, 25 cents each, large bottles each containing the quantity of four small ones, 75 cents each.

Extract of a letter from Daniel Adams, Esq., of Hawkinsdown, Maine

FEBRUARY 15th 1853.

To Rev. Walter Clark Dear Sir—I like the Cough Mixture which I bought of you at Topsham and the desired effect in my wife She had been afflicted with a cough for two years—that in the winter removed it.

He says it is the best medicine in the world, and cannot be recommended too highly.

JESSE HAYES

From Mr Fletcher Cook, agent for North Dixmont, Maine.

Dear Sir—A number of the most extraordinary cures have been effected by your Universal Cough Mixture in this place. Several who had a cough for a year or more, and others who have been confined six months with it, receiving any benefit have been speedily cured by the Universal Cough Mixture.

From Mrs Hubbard, Thorndike, Me.

DECEMBER 1, 1854.

To Rev. Walter Clark Dear Sir—I do certify that I have used one bottle of your Universal Cough Mixture for a distressing cough that seemed to be in the lungs. I had previously taken several kinds of medicine and had been under the care of several physicians without deriving the least relief. Hearing your Universal Cough Mixture was recommended to me I procured a bottle, which I began to take according to directions on the bottle, by which in a few days I was entirely cured.

Voters of Maine—upon which Side will you Stand?

The election which is to take place in this State, on the 10th of September, is to decide a very important question, in regard to the position of Maine upon national politics. It is to decide whether the people of this great and free commonwealth will permit their political influence to be strayed in favor of the extension of slavery, and the pusillanimity of that unjust, anti republican and salvage system in a professedly free country—or whether they will nobly and resolutely decline that the position of resistance to the encroachments of that system which was assumed by them last year, shall be maintained.

It will perhaps decide far more than this—its effect may be decisive of success or defeat to the cause of freedom throughout the country. In every part of the free north, the people are looking to Maine as the State which is to lead off in the great Republican cause, and give it a mighty impulse for victory. Defeat in Maine, at this juncture, would cast a dark shadow of discouragement over those who are now laboring in other States to bring back the government to the position intended for it by the founders of the Republic—that of the government of a *free* country. The great States of New York, Pennsylvania, and Massachusetts are about wheeling into the Republican column—and shall Maine, which last year gloriously led off that column—shall Maine now suffer the banner of freedom to be cast down in her midst? Never. Maine will stand by the principles which she has avowed. She will again emphatically declare, by the votes of her people, and by the influence of her administration, that slavery shall not be made a national institution.

The contest, however, calls for energy, determination, labor—it calls for the sacrifice of personal prejudices, and for the laying aside of personal disappointments, wherever they may have been experienced—and for the elevation of *principles above men*, on the part of those who have enrolled themselves under the banners of the Republican cause.

It calls also upon men of all parties, to forget the dead issues of the past, and decide WHOM THEY WILL SERVE in the vital issues now before us. The lines are now drawn between those who go for *practical* constitutional resistance to the spread of slavery, and those who are willing still to acquiesce in the onward march of that institution. The liberal, we say, are drawn—and every man must choose to be either upon one side or the other. No sensible man can deny the fact, that all who vote for Judge Wells or for Mr. Reed, vote *practically* for sustaining the administration of President Pierce and all the enormities of the Nebraska outrage, and the infamous black laws just enacted by the southern party in Kansas. We say, no candid man can, upon reflection, doubt that such would be his position, in supporting either of the candidates of the opposition. For a vote for Mr. Reed is equivalent to a vote for Judge Wells—and the election of Judge Wells would be hailed with delight, both by the administration at Washington, and, by the pro-slavery men all over the country, as an endorsement by Maine of ALL the acts, and a the entire policy of that administration—principles and service as it has been. If any man, still loving the Whig name, supposes that he may vote for Mr. Reed without throwing his vote and his influence in favor of the pro-slavery party, let him consider that he is at the same time exposed to enter into a close alliance with the Wells and Pierce men upon the senatorial and representative tickets—that in many c he counts, and in all of the representative districts, the candidates of the Hunker Democrats and the Silent Whigs *will be the same*—and that all his political influence will thus be thrown in favor of the former, who from their greater numbers will be sure to control the "alliance" to their own purposes.

To all candid and honest Whigs, we say, therefore, "Choose ye, whether your influence shall go for freedom or for slavery. Duplicity, falsehood, and misrepresentation have been used, to make you believe that a reform is needed in the State administration—and that it is more important to defeat Gov. Morrill's re-election than to place the State in a high moral position in its politics and influence.—Be not deceived in this matter, by men who are but selfish seekers themselves after the offices and patronage of the State. The State government is in good and safe hands. Much better men control it, and all events, than you would have by placing the "sectional" Democrats in power. The main charges against the State administration are based in falsehood and misrepresentation. The most violent assaults are for acts which were not performed, and against which Republicans themselves voted in the legislature. Be not deceived, then, by the false cry of corruption and abuse in the State government. There is no foundation for it—and it is raised only to blind your eyes to your duty as freemen, and thus to enable the leaders to accomplish their own selfish ends. We say therefore to all who would *do* anything to restore freedom in Kansas, or who would prevent her admission with the infamous black laws just passed by her Missouri legislators—rest no confidence upon the honor and integrity of your own State government, and *vote to sustain the Republican movement*, in which alone we have the only hope of bringing the south to a reckoning as to that there, in a north, and that there must be some boundary set to slavery.

To all candid and thoughtful friends of the temperance reform we would also appeal. We would ask them,—in no spirit of fanaticism—whether they desire to see prohibitive legislation overthrown, and the traffic in ardent spirits again licensed, and free to work its disastrous effects upon the community. Such is in truth the question, whatever pretenses may be made to the contrary. A defeat of the Republican State ticket, and the accession to power of the opposition, will be followed by the overthrow of the principle of prohibition; and no *effective* law for the restraint even of the traffic can or will be passed to take its place. Every man who looks at the elements of the opposition, must be convinced of this act; and if he thinks the unrestricted sale of ardent spirits an injury to the community, and an obstacle in the way of moral progress and pecuniary prosperity—he will vote to sustain the Republican party.

The funeral of the venerable and lamented Deacon Adams, was attended from the Central Church, yesterday afternoon. The services were last-ned to by a large audience of his friends and fellow citizens, and were very impressive in their character. After an opening hymn by the choir, and reading from the scriptures, a beautiful and touching address was delivered by Rev. Prof. Pond, who had been long and intimately associated with the deceased, and who was thoroughly acquainted with all the excellencies of his character, and the purity, goodness, and Christian exaltation of his life. His remarks were delivered with much emotion, and deeply affected the hearers. The address was followed by another solemn and beautiful hymn, and the services closed by an impressive prayer. The waiting audience then took their sad look upon the good man's serene and happy face, and his earthly remains were carried to their last resting-place, beneath the peaceful shadows of Mount Hope.

ABRAM LYING—We see that papers abroad are representing the number present at the democratic convention in this city, as 4000! If there is any devil he will certainly have business with those editors. The grand procession on that day, was counted at three different times and the highest count was 368. At the meeting in the depot, in the afternoon, when but few Republicans of the city were present, and a large sprinkling of Stratton Whigs, the audience might have been between 1000 and 1500. It dwindled very rapidly, however, as soon as the curiosity to hear Judge Wells was satisfied,—and many of his former friends were satisfied *before* he concluded.

WALDO—The following is the Republican ticket for Waldo, nominated on the 25th:

For Senators—N. G. Hichborn, of Prospect; Hiram Bliss, of Lincoln; Thomas Marshall, of Belfast.

Clerk of the Courts—Nathaniel Patterson.

For County Treasurer—Boban P. Field.

For County Commissioner—Asa Thurlough of Monroe.

An adjourned meeting will be held at the City Hall this evening, when an address upon the political issues of the day, is expected from GEORGE M. WESTON, Esq.

It is said that the Bath Tribune has been purchased by David Bronson and a few other Statitionite, and is soon to change its politics.—The Republicans, who comprise the bone and muscle of the place, are making arrangements for a new organ.

Godey's Lady's Book—Inducements to New Subscribers.—

We again see come to our table this old and favorite magazine, which has become indispensable with the fair sex. The publisher still exhibits unwearied industry, and bestows unlimited expense in sustaining and constantly improving the Book. No work of the kind ever exhibited so great a variety and excellence of matter and illustration, both of an elegant and a useful nature. The number for September, just received from the publisher, opens with a superb engraving, entitled "Cottage Devotion," and contains 42 other engravings of dress, embroidery, music, patterns, models &c., got up in the very best style of modern art. Among the other attractive articles and sketches in this number, is a continuation of the "Life of Isabella, Queen of Spain;" Wonders of Chemistry; Lesson XX of Godey's Course in Drawing, "Blind Minnie," "Jeanie Douglass," "Irish Blunders" &c &c. The publisher says it continues to give the large amount of 100 pages of matter each month. The subscription price of single copies of the Book is $3; two copies for $5, six copies or $8 By special arrangement, *we can furnish new subscribers one copy of the Lady's Book, and one copy of the Bangor Courier, weekly, for $3 50 per year*, payable in advance.

THE MURDER OF HELEN JEWETT.—We find a statement in the New York Times which renders it quite probable that Helen Jewett was murdered by Maria Stevens, an inmate of the same house, and with whom Richard P. Robinson had been familiar before he became attached to Helen. Maria committed suicide about a fortnight before Robinson's trial.—Though Robinson had been with Helen on the night of the murder, and had left his cloak and hatchet, he was acquitted on an *alibi*, now well known to have been proved by false swearing. Helen persuaded him to leave his cloak for her to mend, and as an inducement for him to call to see her for the last time. As to the hatchet, he was using it from his store to be sharpened. Maria had the *motive* of revenge, and Robinson had no sufficient motive for the deed. He told Ellen Hoffman, his lawyer, that as God was to judge, he knew not who committed the murder. Mr. Hoffman, having a witness that would prove an *alibi*, thought it best, in the strong and complicated circumstances against the prisoner, to rest the defence on that.

She was so little harmed that she was playing "wait for the wagon" and "Yankee ship a hand to travel," on the piano, in the afternoon.

A DEEPER SPRING.—California papers mention the discovery of a spring in El Dorado county in that state whose waters flow from a bed of stone. The mineral deposit is thirty feet thick, and crops out of the surface of the earth. Veins are abound with gold, and specimens of this auriferous ore have been shown to the editor of the Placerville American. The name of "Death Spring" has been given to the stream. The existence of it is supposed to account for the mortality among the gold miners at the early period of the California epidemic.

THE REVOLUTION IN NORTHERN MEXICO.—*New Orleans, August 24*—The San Antonio Sentinel of the 18th inst., mentions the arrival of Col. She is a member of the Church, and has long been noted for her unblemished behaviour.

HOW MARBLES ARE MADE.—The common mode of grinding children's marbles is a curious instance of a complex in exactly. A number of stone blocks, which are notably rude, are put together in a tin box, and fastened to the run of a water mill wheel, and there left to grind themselves into shape.

Awful Railroad Accident.

Thirty-five or forty persons killed Seventy-five some wounded!

PHILADELPHIA, Aug 28.—The train which left New York at 10 o'clock, for this city, on the Jersey Railroad, was thrown off the track near Burlington, and it is reported six lives were lost. As yet we have no further particulars. A special train was dispatched with surgeons to the scene of the disaster. It is reported that the engineer, fireman, brakeman and baggage master are among the dead.

SECOND DISPATCH.

A dispatch from the passenger train to the road, says that there were from thirty-five to forty passengers killed.

The accident occurred two miles above Burlington. The up train waited at Burlington for the down train, which was behind the ten minute, and then went on slowly. There was a vehicle at the crossing, the driver of which waited until the train passed by, when he started to cross the track. The engineer at the same moment hearing the down train approaching, suddenly reversed his engine, and in coming back encountered the vehicle, which was instantly crushed to pieces, its occupants, however, escaping without very serious injury. The whole train, however, was thrown from the track—one car ran completely through the next car, killing or maiming nearly all the passengers in it.

We have the names of the following among the killed.—Catherine Bigelow, John Bolton, D. F. Haywood, Thomas J. Meredith, E. M. Green, D. H. Redjoy, C. M. Barclay, Edward C. Bacon, Wilson Kent. Alexander Kelly Most of Mr. C. has gone to Washington. Mr. M. J. Stoughton, Martin Connell of Wilmington, Del; Jacob Howard of Lebanon, Tenn; Harry Rush of Georgetown College, Capt Boyce of the U. S. Navy, together with his wife, James Lincoln of Maryland.

The wounded are said to number seventy, and among them we understand are two daughters of Capt. Boyce, who with his wife was killed.

Capt or Maj. Boyce was connected with the Coast Survey. Thos. J. Meredith and John Dollam belong to Baltimore. Edward Green is not among the killed.

Mrs. Margaret Prescott, of Salem, wife of the Rev. Mr. Prescott; Baron De St. Andre, French Consul, of Philadelphia, and Catherine Brown, colored, were also killed.

Among the wounded we have the names of Wm. C. Alderdey, member of Congress from New York (seriously), Mr. Fisk of Connecticut; John F. Gillespie and wife of Natchez, Mrs. King of Charlestown, Va., Mrs L. Buck of Pittsburg; John Kelly Pittsburg, (badly). Mr Kent of Mississippi; Samuel Lamb of Ohio, Hon Wm Whelan of the Naval Bureau, Washington, Com. Joseph W. Smith, Spencer McCanklie of the Coast Survey; Mrs Haslan of Jersey City, Dennis O'Kane of the District of Columbia, H. A. Hughes of Shankland's Express, C. W. Oldensburgh of Philadelphia.

Mrs. Dudley, among the dead, was the wife of Clement C. Barclay of Philadelphia, and was on her way to Europe.

Master Hamilton Scott, of Lieut. Harry Ingersoll of Philadelphia, died at Bristol, where he was conveyed subsequent to the disaster.

When the down train from New York stopped, it was within one hundred feet of the wrecked, of Philadelphia train.

The vehicle which caused the accident to the up train, was driven by Dr. Hannegan, and contained a son his wife and two children, all of whom escaped with but trifling injuries. Both horses were instantly killed. The doctor was hard of hearing and did not hear or see the train coming, having seen the train pass up, he thought all was safe.

FLOUR SPECULATIONS.—The Buffalo Republic has an article in the issue of August 23d, that proves pretty conclusively the truth of their assertion, that the supply of breadstuffs was ample for all home demand, and that every penny charged for flour over and above a fair export price, has been so much money taken out of the pockets of the consumers for the benefit of the speculators. The Republic says

"That during the present summer, *on the 1st 600,000 bbs are reported by the State of New York, through her northern borders, consumed here—seven hundred out of between three and four millions of dollars.* The produce trade of 1855 has been an exception to all former years, as well as to all laws regulating such transactions. The law of supply and demand has been kept completely out of sight, and has had no more effect than the fugitive slave law in Canada. The crop of 1854 has been exclusively controlled by a limited number of persons, who have sent it forward in just such quantities as they required, and in no greater—who have held it just as long as they desired, and no longer, and who have sold when they could get their price and stored when they could not, just as it suited their own convenience. There has been a perfect understanding among the dealers from the commencement. Combinations and re-combinations have been formed for the purpose of keeping prices up, and the banks have aided to the fullest extent in carrying out the plan. That it has proved successful is notorious, but that much money has been made out of the operation, and by the farmers, we are not disposed to admit. The speculators have overshot the mark, and the anxiety which they have suffered is likely to prove their own reward."

This is pretty evident, or else the present prices could not be maintained a single day. We don't know but flour speculators are just as honest as any other set o men who come together to buy cheap and sell dear, but he mess aid apt o feel a rise in flour much quicker than a rise in stocks. We hope the prod ct this year of our fields will be so large that no combination can exhibit the market and regulate the price.—*N Y Tribune*

An ex-con mission merchant, confessing his rascality, says he sent a note the following "returns" for a crop of corn consigned him:

THE EASTERN WAR.—Private letters from St Petersburg of the 3d August received in New Bedford, represents that the Anglo Russian war is likely to continue during several years. The great object of the Western powers, according to the writer, that of humiliating Russia. He adds: "So the Sevastopol, Cronstadt and all the fortified places that line the shores of the Baltic and Black Seas to navigate the fortresses in Poland and Finland, and reach the Petersburg, Moscow and all the inland fortifications, will require years to accomplish; and at this point is done before the Russian nation is humiliated." The daily expense of carrying on the war is estimated at £1,500,000 or $7,500,000.

CRUEL TREATMENT OF THE RUSSIAN NAVY.—There is quite a romance in a small way, says the Argus, in the manner by which Mr. J. C. Thompson, of this city, received the office of Chief Engineer of the Russian Naval Department. Two or three years ago, when Mr. T. was crossing the Atlantic, in the Collins steamer Pacific, of which he was first engineer, there were on board four members of Congress. It was natural for them to visit the engine room, and in doing so they became acquainted with Mr. T., who, by his courtesy upon the occasion, confirmed to be a mechanic and genius of no mean pretensions. In the course of the conversation they had, Mr E ventured to give his ideas upon the then impending war between Russia and Turkey, and also what the result would be in the event that France and England should espouse the cause of Turkey. He elaborated considerably upon the Russian navy, and expressed in a casual way what might and ought to be done, &c. At the suggestion of one, a recommendation for Mr. T.'s future was drawn up, signed by the Congressmen, and upon their arrival at London was signed by the American Minister. It was sent returned to the country, where it received the endorsement of many distinguished men, and was finally despatched to the late Czar. About a year since Mr Thompson left the Pacific, and embarked in business in this city. He had quite forgotten the "affair," until one day last week he was surprised by the receipt of a huge document bearing the imperial coat-of-arms of Russia, making him the offer we have stated. Ma. t. the next day went to New York, to consult with Mr. Collins upon the offer, and with Mr. C. has gone to Washington. Whether he has accepted or not, we have not learned.—*Albany Journal.*

FALL ELECTIONS.—Elections have yet to be held this year, we believe, in twelve States. In most all of them, Legislatures and State officers are to be chosen, and in four of them Representatives to Congress. Of the latter class are Louisiana, Mississippi, Georgia and Maryland, which are entitled in the aggregate to twenty-three members. The elections will take place as follows:—

In California and Vermont, Tuesday, September 4; Maine, Monday, September 10. Georgia, Monday, October 1, Pennsylvania, Indiana and Ohio, Tuesday, October 9. Louisiana and Mississippi, Monday, November 5. New York, Wisconsin and Massachusetts, Tuesday, November 6, Maryland, Wednesday, November 7.

SINGING CHICKENS VERY.—I had a narrow bed, not more than two feet and a half wide, on the edge of a paper, and enclosed by a high fence. I painted three or more bills on the border, and with a home brush (such as is used for painting) between them and the fence. As soon as they crept up to the top of the brush, I plucked off the ends of the same with thickened rapidly around the roots, and in every direction throwing out the most vigorous foliage, and a profusion of flowers.

I did not allow the cucumbers to grow, but watched them, and such as I wished to reserve for the table, I picked as soon as they became of the proper size, all the rest were gathered every day for pickles. I never made more than three kills at the end of each shoot. In this way the hills continued fresh and productive until they were touched with frost. Some judgment was to be formed of the value of this practice when I add that more than a barrel of pickles were made from the three hills, besides allowing a supply for the table.

Whenever a leaf began to look rusty or yellowish, it was removed, and every cucumber and leaf was cut off with large scissors, so as not to disturb the vine. There is an advantage also in having them run up on brush instead of trailing over the ground; because they are injured by being trodden on, and by being kept low or the bushes they can be easily and thoroughly examined every day, which is essential, because if one or two cucumbers are overlooked, and grow very large it stops the yield of that vine.—*Cor. Horticulturist.*

"Any one who has sailed up the San Joaquin River or the Petaluma or Napa Creeks, whose frequent bends and turns often cause one to be a full hour or more actually passing one fixed point on their banks, can appreciate whatever fun there is in the following. It is related of a steamboat captain who was trying to make his wending way up one of the meandering streams of the south. As the circuitous nature of his course required, he rapidly turned the wheel—now to the right, then to the left, and struck in quick succession the signal bells to the engineer to 'stop her,' 'back her,' 'turn her,' 'stop her.' At last she went down on into a sand bank, and stuck fast. Mad with excitement and vexation, he left the wheel house and rushed into the engine room with, 'What are you doing?' (with an oath.) 'Hush, hush!' cried the poor engineer, vainly endeavoring to obey the rapid orders as if nothing had happened—while he made a deprecative motion with his hand, and turned upon the captain, his face dripping with perspiration, the very picture of despair. 'Hush, hush! don't say a word. *I am three bells behind already.*"—*Californian Pioneer.*

The baby show at Doylestown, Pa., on Friday drew a great crowd, though only a dozen were entered for the prizes; the first of which, $500, was taken by a girl of four years, weight 78 pounds.—Twenty three Boston lady riders were among the twelve female competitors on the race course. But did not take the college of the premiums. His riding was "magnificent." Miss Howard was thrown over her horse's head, but was not hurt.

THE SICKNESS AT NORFOLK AND PORTSMOUTH.—*Baltimore, Aug. 29*—The whole number of deaths from fever at Portsmouth, from the beginning up to Wednesday noon, was 300, including 107 at the Navy Hospital.

Sixty-two new cases have been reported at Portsmouth since Saturday. The deaths for the week ending Tuesday were 116.

KENNEDY'S

MEDICAL DISCOVERY

The Greatest of the Age!

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR,* from the worst Scrofula down to a common pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth

One to three bottles will cure the worst kind of pimples on the face

Two to three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach

Three to five bottles are warranted to cure the worst cases of erysipelas

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair

Four to six bottles are warranted to cure corrupt and running ulcers

One bottle will cure scaly eruptions of the skin

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism

Three to six bottles are warranted to cure salt-rheum

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as, that a common weed, growing upon the pastures, and along old stone walls, should cure every humor in the system; yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it, no long some cases but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts He gave it to children a year old, to old people of sixty; and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week.—There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person I heard some of the most extravagant encomiums of it that ever man listened to

No change of diet ever necessary. Eat the best you can get and enough of it.

ROXBURY, Sept. 19, 1854.

This is to certify that H. H. HAY, Druggist, Portland, is the duly AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

TESTIMONY FROM MAINE.

Capt Daniel Abbott, Brooklin, Maine, July 16, 1853, says; "I was taken sick one year ago last April, upon my passage from Havana to Charleston, S.C.—At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last taking up a newspaper having your advertisement of "Hoofland's German Bitters" in it, I sent for some immediately. This was about 11 o'clock, at 11 o'clock I took the first dose, and another at 5 o'clock The effect was so rapid on me that I had a good appetite for supper, and rested well that night, and the next day found me a well man,—I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India Islands ever since. I have now given up going to sea and reside in this place, where you should have an agency, as you could sell large quantities of it."

Jos B Hall & Co, Presque Isle, Aroostook Co, Maine, April 24, 1854, say. "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr Clark to be a man of veracity, and have no doubt of the truth of his story"

Messrs Jos B Hall & Co—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by "Hoofland's German Bitters, I was induced to try them in her case, and sent to your store and purchased *one bottle.* She had taken it but a few days when she began to improve and now, after taking *only one* bottle, she is enjoying better health than she has for years.—She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters. WILLIAM CLARK.

Salmon Brook, Aroostook Co, Me.

You should bear in mind that these Bitters are *entirely vegetable,* thereby possessing advantages over most of the preparations recommended for similar diseases.

IMPORTANT PROCLAMATION! **A Great Mystery Explained.**

In the year of our Lord 1847, in our capacities of analytical chemists, we discovered that by uniting certain vegetable agents, which had never before been used in medicine, we obtained properties possessing such a marvellous quick power over PAIN, that the moment it was applied to the parts affected with pain, all uneasiness ceased. The most torturing pains were relieved in an instant, and the most violent spasms and irritations were soothed, and the system restored to perfect ease in a few minutes.

In 1849 we introduced this Remedy to the world under the name of

RADWAY'S READY RELIEF

It has been used by hundreds of thousands throughout the United States, giving instant ease to all troubled with Pain or Sickness

One application externally, or a few drops taken internally, will instantly free the sufferer from the most violent and terrible pains, and restore the weak, feeble, and prostrated frame to strength and vigor

No person has ever used RADWAY'S READY RELIEF without deriving some special benefit in less than fifteen minutes after its use

Let those who are now suffering any severe pains give it a trial, for in fifteen minutes they will enjoy ease and comfort

RADWAY'S READY RELIEF

was the first and is the only remedy ever discovered that will stop the most torturing pains in a few seconds, and free the system from Rheumatic, Neuralgic, Nervous, and Miasmatic Disorders in a few hours. It will cure and protect the system against sudden attacks of

CHOLERA,	DYSENTERY,
DIARRHOEA,	CHOLERA MORBUS,
BILIOUS CHOLIC,	FEVER AND AGUE,
PNEUMONIA,	INFLUENZA

Bear in mind, it is a powerful Disinfectant, antiacid, diffusive stimulant, nervine, anti spasmodic, and counter irritant

The R R REMEDIES are medical discoveries of the present century. They are prepared on an entire new and original theory, "to stop pain instantly," and protect the human system against sickness or any sudden attacks. The doses required to be taken are small, A few drops of READY RELIEF exercise a powerful influence over diseased action

IT HAS CURED

Rheumatism in four hours,
Neuralgia in one hour,
Croup in ten minutes,
Diarrhoea in fifteen minutes,
Toothache in one second,
Spasm in five minutes,
Sick Headache in fifteen minutes,
Chill Fever in fifteen minutes,
Chilblains in five minutes,
Sore Throat in four minutes,
Influenza in one hour

SPINAL COMPLAINTS, Stiff Joints, Cuts, Bruises, Wounds, Frost Bites, Cholera Morbus, Dysentery, Tic Doloreux, and all other complaints where there are severe pains. RADWAY'S READY RELIEF will instantly stop the pain, and quickly cure the disease

DR. J. H. SCHENCK'S

SEA WEED TONIC,

—FOR THE—

Cure of Dyspepsia.

THIS remedy is composed of a compound preparation of a common weed growing along the sea shore, and is a certain remedy for the cure of Dyspepsia and its accompanying diseases, to wit

Sour and Sick Stomach, Loss of Appetite, Headache, Pain in the Side and Breast, Palpitation of the Heart, Ulcers and Eruptions of all kinds, Chills and Fever, Gravel, and Diseases of the Kidneys, Nervousness, Weakness of the Limbs, Fainting Spells, and all diseases peculiar to Females

Nearly every person is more or less afflicted with Dyspepsia, or some of the diseases connected with it, and it is with feelings of pleasure that Dr. Schenck can announce to all such the discovery of the virtues of the Sea Weed, which is just the remedy for their ailments. Dyspepsia and the many diseases arising from it, is caused by the deficient secretion of the gastric juice, and weakness of the powers of the stomach. The effect of the Sea Weed Tonic is felt soon after it is taken, as it supplies at once the principles of the deficient gastric juice, and the food is digested naturally. In fact the Tonic so nearly resembles the natural gastric juice that chemists even find difficulty in distinguishing them. It gives tone and strengthens the stomach thus enabling it to secrete the proper quality and quantity of Gastric juice, and Dyspepsia and all its diseases soon disappear

It is a well known fact that none suffer like the Dyspeptic for in addition to the Dyspepsia there is often either Headache, Sour and Sick Stomach, Pain in the Side, Palpitations of the Heart, Chills and Fever, Gravel, Disease of the Kidneys, Nervous Weakness and Tremors, General Debility, Faintness, Loss of Appetite, Bad Taste, Fever, Stoppages in Females, all of each of them arising from a disordered state of the Stomach, and here is a newly discovered *remedy* for the trifling sum of *one dollar,* that will cure all this train of diseases!

Now, Dyspeptic will you not avail yourself of this remedy for so trifling a cost of will you still suffer on? The choice is for you to make. The Sea Weed Tonic is a pleasant bitters, giving a person a good appetite and good digestion. It is put up in quart bottle, always agrees with the stomach, and *one bottle* generally effects a cure. Whenever the bowels are costive, the tongue furred of the complexion sallow, a few of Schenck's Mandrake or Liver Pills are to be used. A box of these Pills accompany each bottle of the Tonic, and will be found in a recess of the bottle, covered with a label

SCHENCK'S

MANDRAKE PILLS

Will be found to possess those qualities necessary to the total eradication of all bilious attacks, prompt to start the secretions of the liver and give a healthy tone to the entire system. Indeed, it is no ordinary discovery in Medical Science, to have invented a remedy for these stubborn complaints, which develope all the results produced by a heretofore free use of calomel—a mineral justly dreaded by mankind—and acknowledged to be destructive in the extreme to the human system. That the properties of certain vegetables comprise all the virtues of calomel, without its injurious tendencies, is now an admitted fact, rendered indisputable by scientific researches, and those who use the Mandrake Pill, will be fully satisfied that the best medicines are those provided by nature in the common roots and herbs of the fields

The Pills open the bowels and correct all bilious derangements without salivation, or any of the injurious effects of calomel or other poisons. The secretion of bile is promoted by these Pills, as will be seen by the altered color of the stools, and disappearing of the sallow complexion and cleansing of the tongue.

Ample directions for use accompany each box of Pills, and the price of a quart bottle of the Sea Weed Tonic and box of Pills combined is only one dollar But separate boxes of Pills can be had of any of the agents for 25 cents.

These remedies are prepared under the personal supervision of Dr J. H. Schenck, proprietor of Schenck's Pulmonic Syrup, the well established remedy for Consumption, Bronchitis, Coughs, Colds, &c, &c, and the inventor of the celebrated Respirometer, for examining and detecting all diseases of the Lungs, Heart, &c

ANDREW J. MESERVE

Overseer of the Portsmouth Manufacturing C[o]"

CAPT JOEL PRATT of the ship Marion, writes [from] Boston, 20th April, 1854

"Your Pills have cured me from a bilious attack [which] arose from derangement of the Liver which had [become] very serious. I had failed of any relief by my Ph[ysician] and from every remedy I could try but a few doses of your Pills have completely restored me to health. I have given them to my children for worms with the best effects. They were promptly cured. I recommended them to a friend for costiveness, which had troubled him for months he told me in a few days they had cured him. You make the best medicine in the world, and I am free to say so."

Read this from the distinguished Solicitor of the Supreme Court, whose brilliant abilities have made him well known, not only in this but the neighboring States.

"New Orleans, [illegible]

"Sir: I have great satisfaction in assuring you that myself and family have been very much benefited by your medicines. My wife was cured two years since of a severe and dangerous cough by your CHERRY PECTORAL, and since then has enjoyed perfect health. My children have several times been cured from attacks of Influenza and Croup by it. It is an invaluable remedy for these complaints. Your CATHARTIC PILLS have entirely cured me from a dyspepsia and costiveness, which has grown upon me for some years—indeed this cure is much more important, from the fact that I had failed to get relief from the best Physicians which this section of the country affords, and from any of the numerous remedies I had taken.

"You seem to us, Doctor, like a providential blessing to our family, and you may well suppose we are not unmindful of it. Yours respectfully

LEAVITT THAXTER"

"Senate Chamber, Ohio, [illegible]

"Dr. J. C. AYER—Honored Sir: I have made a thorough trial of the CATHARTIC PILLS, left me by your agent, and have been cured by them of the dreadful Rheumatism under which he found me suffering. The first dose relieved me, and a few subsequent doses have entirely removed the disease. I feel in better health now than for some years before, which I attribute entirely to the effects of your CATHARTIC PILLS. Yours with great respect, LUCIUS B. METCALF."

The above are all from persons who are publicly known where they reside, and who would not make these statements without a thorough conviction that they were true.
